	Examiner Jeffrey Donels	Art Unit 2837	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The amendment filed 30 June 2003 is objected to under 35 U.S.C. 132 because it introduces new matter into the disclosure. 35 U.S.C. 132 states that no amendment shall introduce new matter into the disclosure of the invention. The added material which is not supported by the original disclosure is as follows: paragraph 0029, last sentence ("This hum or noise is well known in the art as a "mains hum"); and paragraph 0058 (all references to a 'bobbin'). The disclosure presented in a continuation application must be the same as that of the original application; i.e., the continuation should not include anything that would constitute new matter if inserted in the original application. See MPEP 201.07.

Applicant is required to cancel the new matter in the reply to this Office Action.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-16 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter that was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In independent claims 1,9,13, recitation of a

“former” finds no support in the original disclosure (as filed in the parent case) and is new matter. The term “former” does not appear in the original disclosure and is new matter. In independent claims 1,9,13, recitation of a “mains hum” finds not support in the original disclosure (as filed in the parent case) and is new matter. The depending claims are rejected in a corresponding manner.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-16 are rejected under 35 U.S.C. 102(b) as being fully met by Kinman.

Kinman discloses a transducer for a stringed musical instrument (see Figs. 2,3).

Regarding Claim 9, Kinman discloses a dielectric plate 108. Regarding Claim 11, see col. 2 lines 3-36.

Claims 1-16 are rejected under 35 U.S.C. 102(b) as being fully met by Blucher (US Patent No 5,530,199).

Blucher discloses an electromagnetic pickup (Fig. 1). Regarding Claim 9, Blucher discloses a dielectric plate 12. Regarding Claim 11, see col. 3 lines 47-55.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey Donels whose telephone number is 571-272-2061. The examiner can normally be reached on Monday through Thursday.
